Mornings!**

O Nas Our Story

MANY MORNINGS powstało i działa w Aleksandrowie Łódzkim, polskim “Skarpetkowie”, miejscu gdzie od ponad 100 lat wytwarzane są skarpetki i gdzie przemysł włókienniczy ma korzenie w prawie każdej rodzinie. Wzbogaceni rzemieślniczą tradycją, tworzymy nową jakość. Wspieramy lokalność – produkujemy nasze skarpety w rodzinnym przedsiębiorstwie z 25

letnim doświadczeniem. Pragnienie ekscytujących wzorów i najświeższych kolorów to fundamenty Many Mornings.

a hundred years. Almost every family in the area has a history of working in the textile industry, enriching our fresh new designs with the tradition of craftsmanship. We are proud to support the local economy: our socks are made by a family business with 25 years of experience, enabling us to go even further in our search for unique patterns and bold colour palettes – the heart of the MANY MORNINGS brand.

MANY MORNINGS was founded and is still based in Aleksandrow Lodzki, the sock capital of Poland. It's a place where sock manufacture has been going strong for over

Never too Many

Skarpety Many Mornings to fuzja dziesięcioletnich doświadczeń łódzkiego włókiennictwa, regionalnych pasji i unikalnego podejścia do designu. Doceniamy wysoką jakość, dlatego korzystamy w produkcji z najlepszych surowców. Inspiracje do tworzenia naszych skarpet czerpiemy ze wszystkiego, co nas otacza. Spotkań z przyjaciółmi, nowych doznań, licznych podróży... Tworzymy skarpetki takie, jakie sami chcemy nosić. Jest to dla nas przede wszystkim frajda, którą chętnie się dzielimy.

MANY MORNINGS socks combine decades of experience in the Łódź textile industry with a unique approach to design and a love for a well-made product. Quality matters to us – our production process uses only the finest materials. When it comes to design, we find inspiration in everything that surrounds us. Meeting friends, trying new things, traveling – we learn from each experience to design socks that we would want to wear ourselves. It gives us a joy which we love to share with others!
